

# Creating a Pie Chart

Montana Data Portal

## How do I create a pie chart?

To create a chart, select a filtered view or dataset

Select the Visualize button in the upper right hand corner of a view or dataset.

Select pie chart: Pie 

The options for this chart type are

Under Chart Definition, Choose the label and value of the data. (For this example, we selected city name and current rent).

Under the Data Presentation Colors Selection, Options to change the color are available

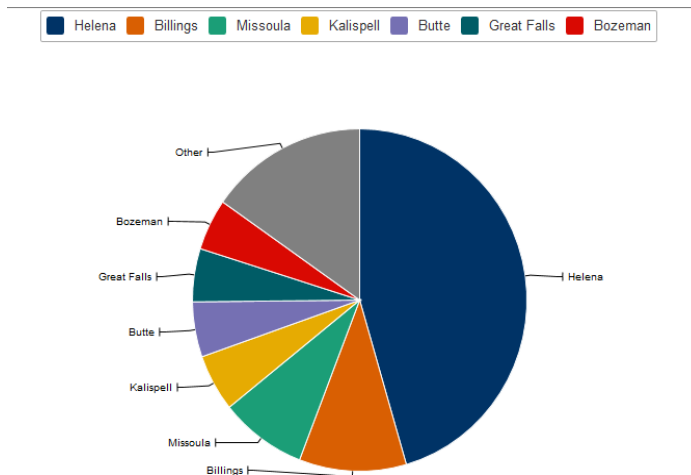

Under the Data Presentation Labels and Values Selection, There are options to include labels, show percentages instead, or set the smallest angle of the chart, which will wrap up smaller data values based on your selection into an 'other' category.

▼ Labels and Values

Show percentages (%)

Show values

Smallest Angle Displayed (°)

Under the Chart Details Legend Selection, You can select where you would like the legend to display and if you would like series descriptions to display.

Chart Details

▼ Legend

Display ( Bottom )

Describe Values

+ Add Additional Text

Under the Chart Details Flyout Details Selection, Select which data points will display when you click on the data point.

Flyout Details

Flyout Title  
Auto

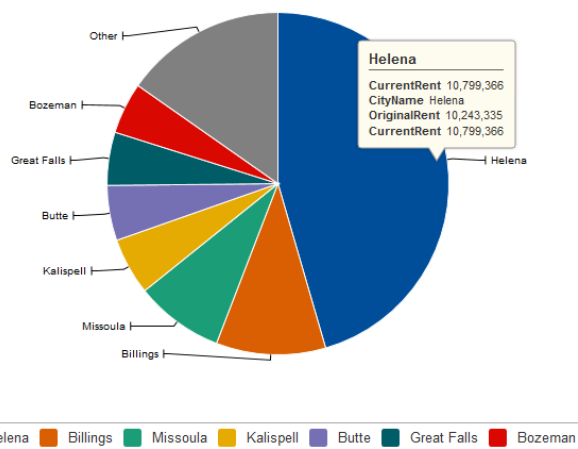

Flyout Values  
CityName

OriginalRent

CurrentRent

+ Add Values

Title  
Value: 200

Save your view if it is an existing view or select save as to create a new chart view.
